

A large, ornate building with a red brick facade and a mansard roof, surrounded by lush green trees. The building features multiple stories with arched windows and a prominent central entrance. The roof is dark and has several dormer windows. The building is set in a park-like environment with dense foliage.

10 to 200 participants

WALK & GAME

# ECO-DIGITAL WALK & GAME

## A BIORIENTATION RALLY

Are you concerned by biodiversity issue and soon a spearhead of sustainable development?

Experiment our initiatory and thrilling program to become an ambassador of the environment!

Driven by an adventurous spirit, equipped with a road book and a tablet, you will travel, as a team, through four thematic areas and meet several challenges.

These challenges will allow you to become familiar with notions of biodiversity, sustainable development, permaculture, naturalness (or any themes of your choice). You will interact and exchange information **enhancing everyone's involvement.**

The goal, of course, will be to win as many points as possible.

# ECO-DIGITAL WALK & GAME

## UN RALLYE BIORIENTATION

Our teambuilding begins with an Ice-Breaker.

With the help of a map, participants will then go in search of checkpoints. Directional "totems" will allow them to win points, reminding them that a long task full of pitfalls is often very rewarding.

**These activities stimulate communication skills, and team spirit.**

# ECO-DIGITAL WALK & GAME

## BIODIVERSITY AND SUSTAINABLE DEVELOPMENT

A sport challenge will give access to the first area, dedicated to Biodiversity.

It takes time to grow good organic products. Next challenge will be to find resources on the spot and submit an organic production for each season in the most original way.

To win, participants will have to show **collective creativity**.

Many other nice surprises are waiting for you in this area ...

# ECO-DIGITAL WALK & GAME

## ENVIRONMENTAL PROTECTION

Environmental protection involves reducing packaging, sorting waste and banning certain chemicals.

Four fictional characters are suspected of having used a dangerous pesticide.

Our apprentice detectives will use their wit and skills to find clues on the spot and solve the case. This **Mystery Party** will allow them to dive into the issue of good and bad practices in a playful way.

Then each team will have to make a short video on environment preservation.

# ECO-DIGITAL WALK & GAME

## PERMACULTURE AND BIOMIMETISM

Contraction of the words permanent and agriculture, permaculture means "permanent agriculture". It is the art of designing, developing and planning longlasting systems.

Participants will become familiar with its principles thanks to several quizzes and imitation exercises. They will try to reproduce natural behavior in front of the camera.

They will then learn how to create fruitful gardens by associating "friendly" plants **working in synergy...**

# ECO-DIGITAL WALK & GAME

## HEALTH AND NATURALITY

Biodiversity offers irreplaceable goods essential to our daily lives: oxygen, food, medicines and many raw materials (wood, fibers such as wool, cotton, hemp ...).

Naturalness and biodiversity are intimately linked. Pollination largely depends on bees and insects, which are vital players in biodiversity.

Photo and video challenge will encourage participants to look around for the intrinsic qualities of the environment and its **unsuspected resources** ...

# CHÂTEAU DE CHÂTENAY

Emulate your Team's Creative Spirit in an amazing countryside  
Only a few miles away from Paris and its major Airport

Château de Châtenay

8 rue Honoré de Mirabeau, 95190 Châtenay-en-France
